

Introduction to Entrepreneurship

Dr. Deepanjal Shrestha
Associate Professor
School of Engineering

Fundamentals of Entrepreneurship

- Entrepreneurship is the process of identifying opportunities and creating value through innovation and risk-taking.
- Focuses on converting ideas into viable enterprises.
- Involves creativity, leadership, and problem-solving.

Key Terminologies

- Startup: Newly established business aiming to solve problems with scalable models.
- Enterprise: An established business organization.
- Entrepreneur: A person who takes initiative to create and run a venture.
- Entrepreneurial Attitude: Mindset of risk-taking, innovation, and resilience.
- Entrepreneurial Intention: Personal motivation to start a business.
- Entrepreneurial Behavior: Actions taken towards creating or growing a venture.

Entrepreneurship vs Employment

- Entrepreneurship: High risk, high reward, creativity-driven, owner of business.
- Employment: Fixed salary, lower risk, structured environment, defined roles.
- Entrepreneurs create jobs; employees fill roles.

Types of Entrepreneurs

- Innovative Entrepreneurs: Focus on new ideas and technologies.
- Imitative Entrepreneurs: Adopt existing models and improve them.
 - *Chinese smartphone brands (like Xiaomi) - adopted smartphone concepts and made them cheaper and better.*
- Serial Entrepreneurs: Build multiple businesses.
 - *Elon Musk - PayPal → Tesla → SpaceX → Neuralink → The Boring Company*
- Social Entrepreneurs: Target social issues with sustainable models.
 - *Anuradha Koirala (Nepal) - founded Maiti Nepal to fight human trafficking*
- Characteristics: Risk-taker, visionary, leader, adaptable, persistent.

Enterprise Lifecycle

- 1. Ideation: Identifying problems and opportunities.
- 2. Validation: Testing assumptions and market analysis.
- 3. Startup: Launching the business.
- 4. Growth: Expanding customers and revenue.
- 5. Maturity: Stable operations and optimization.
- 6. Decline/Transformation: Reinventing or exiting.

Role, Importance, and Challenges

- Role: Drives innovation, job creation, and economic growth.
- Importance: Encourages competition and technological advancement.
- Challenges: Funding, market uncertainty, competition, regulation.

Emerging Technologies & Global/Local Startup Trends

- Emerging Tech: AI, robotics, IoT, blockchain, AR/VR, biotech.
- Global Trends: Remote work platforms, clean energy, EdTech, HealthTech.
- Local Trends (Nepal): FinTech, AgriTech, tourism tech, e-commerce startups.
- Startups leverage digital transformation to scale rapidly.

Successful Entrepreneurs

Stories to remember

Steve Jobs - The Comeback King

- Started Apple in a garage
- Was fired from his own company
- Founded NeXT and Pixar
- Returned to Apple and transformed it
- Lesson: Failure can be a new beginning

Elon Musk - The Risk Taker

- Moved to the USA with little money
- Founded Zip2 and PayPal
- Invested everything into Tesla and SpaceX
- Both nearly failed but succeeded later
- Lesson: Believe in your vision

Sara Blakely - From Salesgirl to Billionaire

- Started Spanx with \$5000 savings
- Faced many rejections
- Created a new shapewear market
- Became a self-made billionaire
- Lesson: A strong idea can change your life

Jack Ma - The Man of Rejections

- Failed school exams multiple times
- Rejected from 30 jobs including KFC
- Started Alibaba with 18 friends
- Built one of the largest e-commerce firms
- Lesson: Rejection is redirection

Ritesh Agarwal - Founder of OYO Rooms

- Started at age 17
- Noticed poor quality budget hotels
- Created standardized affordable rooms
- OYO expanded worldwide
- Lesson: Young age is not a barrier

Kiran Mazumdar-Shaw - The Garage Scientist

- Rejected in brewery industry for being a woman
- Started Biocon in a garage
- Built one of India's largest biotech firms
- Lesson: Build your own door when others close

Sundar Pichai - CEO of Google

- Grew up in a modest family in India
- Didn't own a computer until college
- Led Google Chrome
- Became Google CEO
- Lesson: Humility and hard work win

Colonel Sanders - Founder of KFC

- Started at age 65
- Faced over 1000 rejections
- KFC became a global brand
- Lesson: It is never too late

Bill Gates - Microsoft

- Dropped out of Harvard
- Built Microsoft with Paul Allen
- Changed personal computing
- Lesson: Follow your passion

Andrew Carnegie - From Laborer to Leader

- Grew up poor
- Worked in factories
- Self-educated through reading
- Built a steel empire
- Became a major philanthropist
- Lesson: Knowledge is the greatest tool

Rates of Early-Stage Entrepreneurial Activity (Ages 18 to 64)

TABLE 1.1 Rates of Early-Stage Entrepreneurial Activity (Ages 18 to 64)

Country	Percent of Population Starting a New Business
Australia	10.5%
Brazil	23.3%
Chile	25.9%
China	8.7%
Germany	7.6%
India	15%
Japan	5.4%
Kingdom of Saudi Arabia	14%
South Africa	10.8%
Spain	6.2%
Switzerland	9.8%
United Arab Emirates	16.4%
United Kingdom	9.3%
United States	17.4%

Why People Become Entrepreneurs?

- Be Their Own Boss
- Pursue Their Own Ideas
- Pursue Financial Rewards

An entrepreneurial career is full of possibilities. These three young entrepreneurs are starting a graphic design business.

They are passionate about website design, logo design, and business branding.

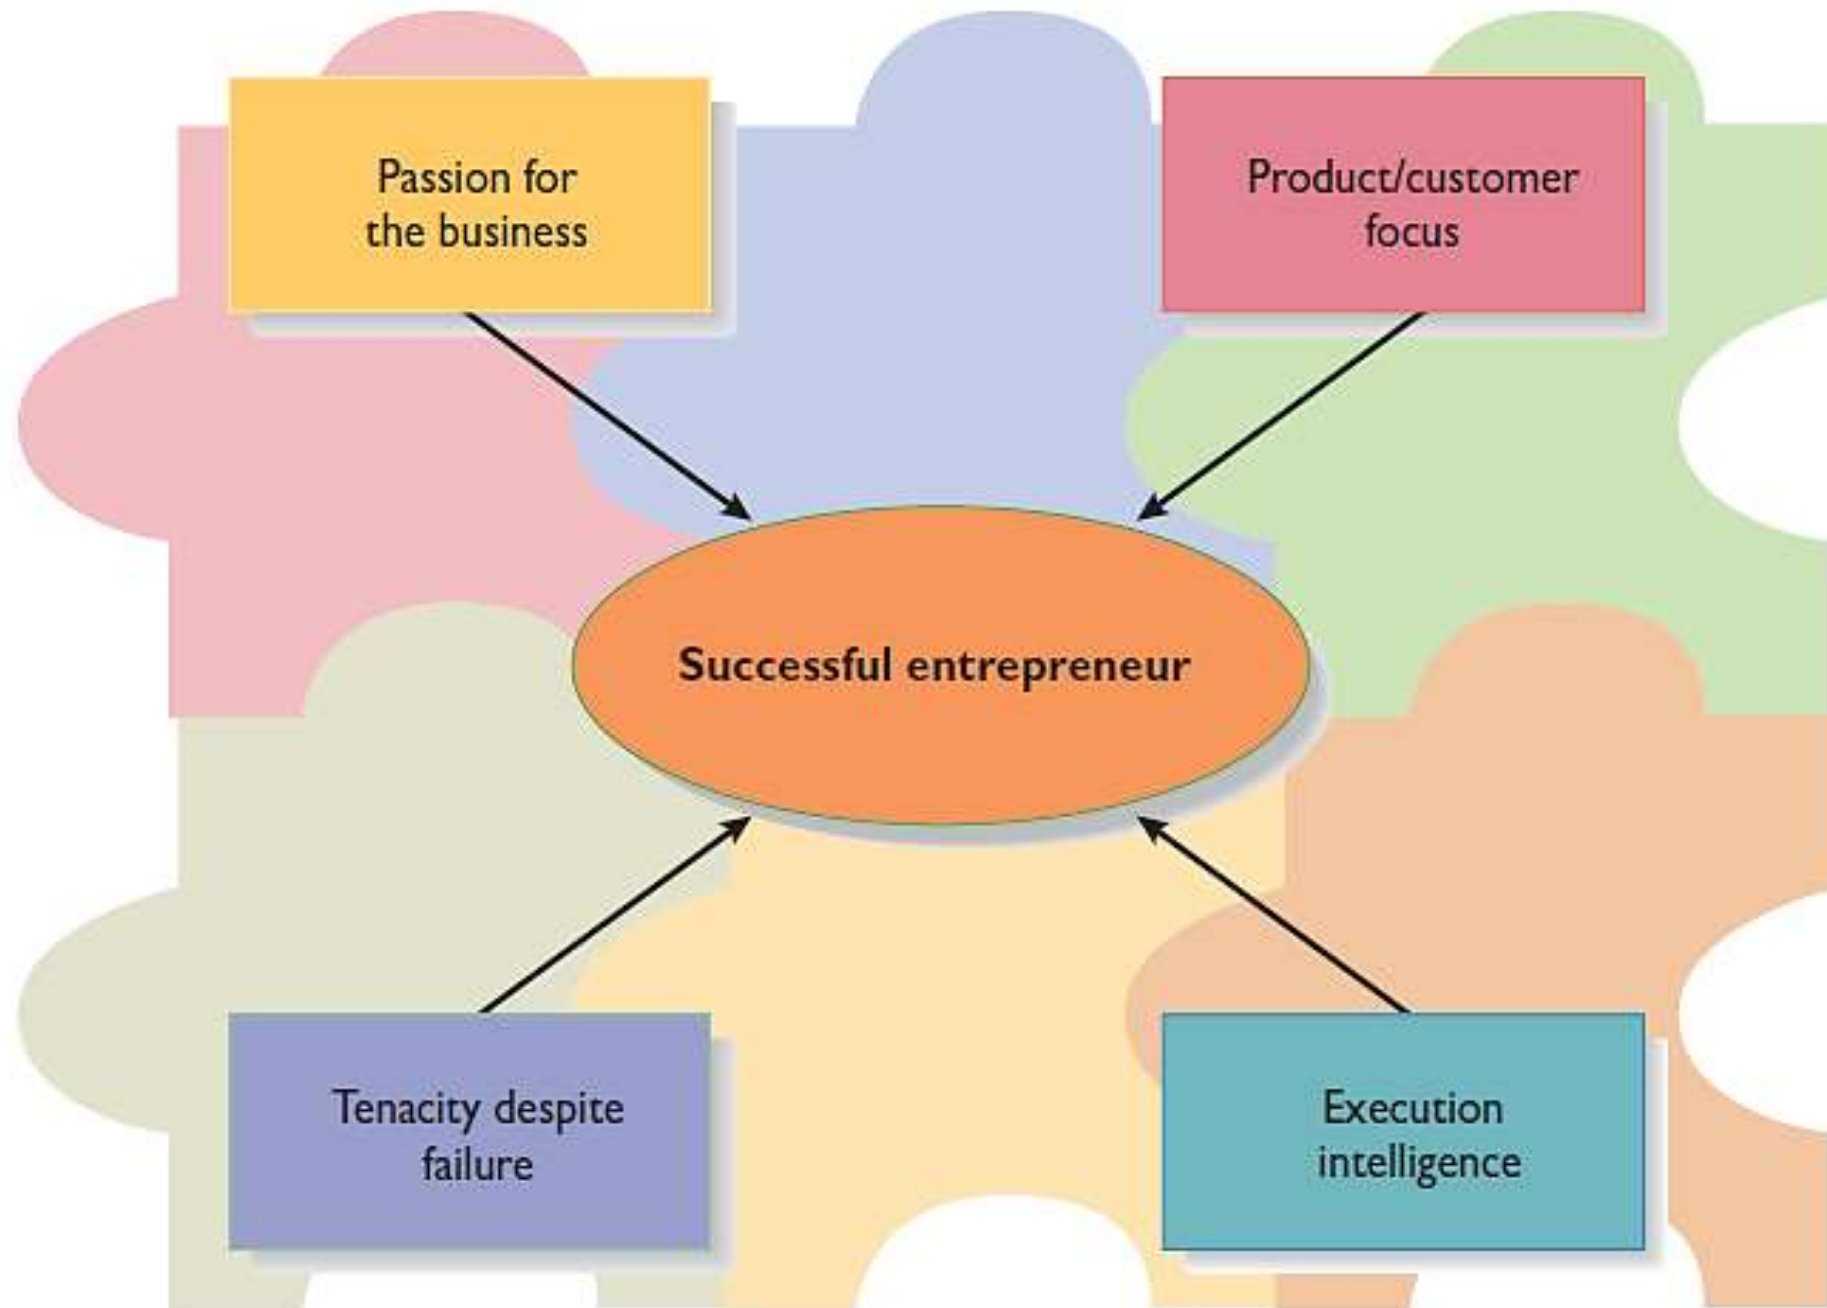

Why People Become Entrepreneurs?

One of the most satisfying things about an entrepreneurial career is bringing products to life that enhance people's lives.

This young woman is enjoying watching a music video provided by an online streaming music service started by two entrepreneurs.

Passion for the Business

- Most successful entrepreneurs share a strong passion for their business.
- Passion fuels the creation of new ventures and sustains them during difficult times.
- Passion often begins with a belief that there is a better way to solve a problem.
- Patrick Whaley founded Titin driven by passion for improving athletic training.
- His belief in a better training method inspired the development of innovative weighted gear.

OUR STATE-OF-THE-ART
WEIGHTED ATHLETIC AND
FITNESS GEAR PUSHES
YOU TO THE LIMIT OF
WHAT YOU THINK YOU CAN
ACHIEVE, HELPING YOU
**BUILD EXPLOSIVE SPEED,
EPIC STRENGTH AND
TEETH-GRITTING
ENDURANCE.**

Five Primary Reasons for an Entrepreneurial Organization

1. The ability to learn and iterate
2. A willingness to work hard for an extended period of time
3. Ability to overcome setbacks and “no’s”
4. The ability to listen to feedback on the limitations of your organization and yourself
5. Perseverance and persistence when the going gets tough

Product/Customer Focus

- A key characteristic of successful entrepreneurs is strong focus on both product and customer.
- Steven Jobs emphasized that technology matters only when it reaches and helps people.
- This highlights the two core elements of any business: products and customers.
- Management, marketing, and finance matter only if the firm has products that truly satisfy customers.

Example: WhitePages.com

- Founded by Alex Algard in 1997 as a free and accurate online alternative to directory assistance.
- Became one of North America's most trusted sources for quick and reliable contact information.
- Algard grew the company from one person to a multimillion-dollar enterprise through focus on delivering real value.
- Success was measured by how effectively the company provided meaningful, accurate, and useful services to users and customers.

Tenacity Despite Failure

Perseverance Through Setbacks and Failure

- Entrepreneurs often try something new, so the possibility of failure is always present.
- Building a new business resembles scientific experimentation.
- Like a chemist testing different combinations before finding success, entrepreneurs test and refine ideas.
- Setbacks and failures are natural parts of this process.
- The true measure of an entrepreneur is the ability to keep going despite difficulties.
- Perseverance determines whether an idea eventually becomes a successful business

Execution Intelligence

- Successful entrepreneurs can turn a good idea into a viable business.
- This ability is known as execution intelligence.
- Execution often determines whether a startup succeeds or fails.
- An old saying reminds us that starting a business is easy, but keeping it open is difficult.

What Effective Execution Requires?

- Developing a strong business model
- Forming a capable venture team
- Raising necessary funds
- Building partnerships
- Managing finances
- Leading and motivating employees
- Turning creativity and imagination into measurable results

Thank you!
